## AERE Provides Pro Bono Services to Tedx, Eastside Institute for Short-Term PsychoTherapy and the European Association for Test Publishers

At AERE, we like to give back to society by offering our expert services at no charge for organizations we feel very passionate about. Recently, we have been working with three organizations, TedX, East Side Institute for Short Term Psychotherapy, and European Association for Test Publishers (E-ATP). For TedX, we developed and administered a post-event survey. Similarly, we developed and administered a survey for E-ATP to collect information about other European conferences. Finally, for the ESI, we conducted a qualitative analysis on perceptions of mental health diagnoses. We are thrilled and honored to have helped these organizations advanced their agendas for the betterment of others.

If your organization is interested in receiving Pro Bono work please reach out to
